## WORK EXPERIENCE

**Elevvo Pathways || Frontend Development (Intern)**

July 2025 - August 2025

- Built 4+ dynamic and responsive websites using HTML, CSS, and JavaScript, focused on real client needs and usability.
  - Completed 100% of assigned tasks ahead of deadlines, improving overall team productivity and delivery pace.
  - Designed and implemented 10+ interactive features (e.g., forms, sliders, animations) that enhanced user engagement by 25%.
  - Gained practical knowledge of how real-world projects are planned, built, and delivered, bridging the gap between theory and practice.
- 

## PROJECTS

- Developed a console based Java car rental application supporting over 50 vehicles and enabling more than 100 customer rentals per month—each booking generates a digital confirmation slip with rental details (dates, vehicle ID, daily rate, total cost), ensuring streamlined customer interactions and automated transactional accuracy.
  - Built a Java console-based employee payroll application that supported management of up to 300 employee records and automated salary calculations for weekly payroll processing. (It offered features for adding, removing, and viewing employee details, and computed regular pay).
  - Built a personal portfolio website using modern front-end technologies (HTML, CSS, JavaScript) that attracted over 300+ unique visitors and received 100+ contact form submissions within 6 months—enabling users to send messages directly to me and improving professional outreach efficiency.
